Prime

Conditions of the road are steep, narrow, and include tight curves with high volume of high speed traffic. Use of more aggressive and advanced temporary traffic control methods are needed for safety.  
 (2) phases of Traffic Control: Single Lane closures and Full Closures

1. Single Lane with temporary traffic control system which include 2 portable traffic signals located on each end of the closures for a approximately 2 months
2. Full closure from Santa Susana Pass Rd to Ventura County line and will allow resident access every 3 hrs for a period of 20 minutes
