Date \_\_\_\_\_

The Property Owner is hereby informed that Floodplain Development Permit (FD \_\_\_\_\_) is issued as illustrated on the submitted project site plan. Any revisions to the site plan including proposed sitting location, additional new building construction, redevelopment of any other existing on-site structure, site grading or temporary or permanent placement of materials and equipment, is not part of this permit and will be subject to a new and separate Floodplain Development Permit. The FEMA-determined BFE plus one-foot freeboard is the minimum allowed Design Flood Elevation.

**This permit is approved for a minimum height Design Flood Elevation (DFE) of \_\_\_\_\_ ft.**

Additional Comments:

## **REQUIREMENTS PRIOR TO ISSUANCE OF A FLOODPLAIN PERMIT**

- 1) The Applicant and his/her project's California-registered Civil Engineer or Architect are encouraged to review and incorporate all applicable Federal Emergency Management Agency (FEMA) regulations and County of Ventura Floodplain Management Ordinance #4465 requirements in the preparation of project building plans.
  - 2) The approved Design Flood Elevation (DFE) needs to be shown in NAVD 1988 datum and clearly illustrated and called-out as the finish floor on the following building plan sheets: all elevations, applicable details, foundation plan and floor framing plan.
