

DISTRICT NO. 1, 17, 19, 38

**VENTURA COUNTY WATERWORKS DISTRICT (DISTRICT)
CONSTRUCTION WATER HYDRANT METER**

RULE 2-B-2

Construction Water Service (Metered):

The District requires that all water used in construction be metered, in which event, the District will furnish, install and remove the meter, valve, and fittings to be located at a fire hydrant or other convenient point to the system.

If the Ventura County Fire Protection District requests the fire hydrant openings be unobstructed at all times, a charge of \$100.00 shall be paid for the installation and removal of a tee and extra valve.

The applicant shall be responsible for the loss or damage to the meter or other equipment used.

The fire hydrant meter requires a Trust Deposit of \$650.00 plus a \$45.00 installation fee payable in advance. ***The service charge for metered construction accounts shall be equivalent to the service charge for a 3" water meter.*** Charges for metered water supplies in ay District for construction purposes shall be computed at the temporary construction water rate.

Temporary service connections will be reviewed annually in January and disconnected / terminated as per R&R's section 1-H-5 within two years after installation, unless an extension of time is granted by the District.

I, _____, do affirm that I have read the information contained herein and agree to abide by the Ventura County Waterworks District Rules and Regulations regarding the monthly service charge together with any charges incurred for water usage.
