

How can you help with these pollutants?

County Stormwater Program tips to help with pollutants <http://www.cleanwatershed.org/at-home>
For grades 6-12

litter and trash

choose eco-products at stores or
make your own

chemicals

recycle or throw away into the proper
container

dog poop

buy in small amounts, use very little,
and store under cover

household cleaners

use Integrated Pest Management

paint

use water-based options or store
under cover for reuse; it can be
used until it dries out

plant or lawn clippings

put in yard waste can or compost

proper disposal of chemicals and
cleaners

take them to a hazardous waste event or
facility

runoff

pick up with a bag and place in trash
can

pesticides

divert downspouts and water to grass or
gravel to go in the ground
