Recycling Container(s) may not contain more than 10 percent contaminants (non-Recyclable Materials) as determined by the Contractor. Generators unable to meet cleanliness requirement will be charged a surcharge of 25% of the trash rate at the service level they pay for. Any customers who refuse to recycle will also be charged a surcharge of 25% of the trash rate based on their level of service. Generators charged for collection of Recycling Containers because of non-compliance with the cleanliness requirement are eligible for free Recycling when the cleanliness requirement is achieved for three consecutive months. Any Generator that (because of excessive weight) has a landfill charge that exceeds 40 percent of the monthly charge will be charged for the additional weight plus a 25 percent handling fee.
